

FISM Newsletter

Nr. 105 – 02nd March 2022

To all Presidents of the FISM member societies
and Delegates in the GENERAL ASSEMBLY of the FISM

Dear Delegate, dear Friend in Magic,

FISM International Board decision

The FISM International Board has just taken note that the conditions to organize in Russia the FISM European Championship in 2024 and the FISM WCM 2025 are no longer reunited. Though we have worked in the last 6 days in agreement with the FISM European Board to evaluate adequate and right actions, we cannot ignore that in Ukraine there are children, people and magicians that are dying for freedom, and we express our closeness to all the Ukrainians.

In no way we blame the Russian magicians and the organizer of the FISM ECM 2024 in St. Petersburg, we know that they are aware of the situation and that they are knowingly withdrawing from any candidacy.

On behalf of the FISM international Board, President Domenico Dante and Andrea Baioni FISM Europe President condemn the war unleashed by Russia against human rights and democratic freedom in Ukraine and are outraged about the irresponsible and inhumane war crimes of the Russian government.

Magic means brotherhood, so no FISM WCM or FISM Europe event can be organized in a country that kills their brothers.

Now it is time to support and help the people that are facing the nightmare of the war, and we ask all European Magic Associations to work together with us for this goal.

Kind regards,

Domenico Dante
International President

Andrea Baioni
FISM Europe President
