FISM Newsletter

Nr. 50 – November 2017

To all Presidents of the FISM member-societies and Delegates in the GENERAL ASSEMBLY of the FISM

It's my pleasure to keep you informed of the latest developments. This is the information we received from the organizing committee WCM 2018.

Dear. FISM Presidents from all over the world.

First Greeting

Hi. We are FISM KOREA 2018 Organization Committee.

Now our members are working hard for enjoyable FISM Korea 2018.

Till now, FISM Busan has been prepared from BUSAN International Magic Festival Organization Committee, and there had been a hard time concerning the preparation of FISM BUSAN due to government expenditures and diverse budgets.

What is more, There has been recent North Korea's Nuclear issue.

In this situation, Yuji Yasuda, Casa Kim who had finished FISM Asia 2014 in

Korea with huge success got together for FISM Korea 2018. And more than 20 people who have many experiences of FISM, many conventions and festivals also joined here.

Then, we have identified all the current problems and have put together a list of possible solutions and the things we need to do in the given time through many meetings, workshops and deep discussions.

Currently, we are working with the government, Busan City, and both convention-&-magic professionals so that everyone in the world can participate in FISM Busan feeling relieved

I would like to talk a few things about FISM Korea 2018 and future plans.

Current Situation in S.Korea

First, I would like to mention about 'North Korean nuclear issue'.

Many foreign media talked about this and told that during the PyeongChang Winter Olympics 2018, France may be absent unless the safety of the athletes is guaranteed.

But now all nations have officially announced to attend, and IOC and other responsible nations have announced that the crisis in North Korea will not affect the Olympics at all.

The IOC says it does not care about Plan B at all, and the IOC chairman Bach noted that considering the other things besides the Olympics in Korea is an act that hinders diplomatic efforts for peace in Korea.

"The Olympics have traditionally been cast as a respite from politics, danger and strife, an opportunity for the world to come together in the spirit of peaceful competition and a reminder that what brings us together as a union of five continents is stronger than what deigns to pull us apart.

Guardian Saturday 12 August 2017"

There was very sad and angered incident a month ago, a big shooting in Las Vegas. There is a danger in the present age anytime and anywhere. Korea has very strict regulation to have firearms and weapons, and it is the safest country for living even in late night. Busan is the southernmost city of the continent and is a beautiful and safe place.

And if war is really happening in Korea, it is not the beginning of the Korean War but the beginning of the Third World War, and it will bring great danger to the whole world with events such as the destruction of humankind. We believe that you believe that magic is a genre of performing arts and that art should contribute to humanity and the world through this FISM Korea 2018.
